“The Pink Pad Air-Assist is the PERFECT solution for our patients and staff. Patients do not move on the Pink Pad until we want them to; at which point it’s very easy to reposition or transfer even our heaviest subjects. I’ll be using this product on all of my patients moving forward. ”

—Matthew Davis, MD, Bariatric
Surgery, Memphis, TN

“The Pink Pad Air-Assist has helped us in a number of important ways: 1) much easier transfer/repositioning of our heavy patients, 2) eliminating the need to interrupt our busy staff to help transfer patients elsewhere in the OR, and 3) maybe most importantly, doing all of this while still providing the patient protection and Trendelenburg security that the Pink Pad is known for.”

—Kim M. Lummus, Operating
Room Manager, Riverdale, GA
