

## DISPOSABLE PENCILS

### AVANTAGES

- Developed using **high quality industrial components** following the **most recent automated technology**, the holders provide a **competitive cost/performance ratio** without compromising on **safety** in high frequency surgery.
- Sterile, **ready-to-use** device, packaged in **double sterilisation bag** with **traceability label**

## Reliability

The ergonomic design of the holder provides excellent grip in the hand of the surgeon and contributes to the precision of movement.

The sensitivity of the CUT and COAG switches ensures constant pressure and safe electrosurgery.

The flexibility of the cord facilitates the precision of movement and limits surgeon fatigue.

## Security

The double sterilisation peelable bag with sterilisation indicator provides safety when attaching the holder.

The holders are equipped with a universal hexagonal anti-rotation system allowing the use of all types of electrodes.

All of the most demanding tests are carried out throughout the manufacturing process and final inspection.

## Ease of use

The pencils are available with Lengths of 3 cm and 5 cm cords to secure the surroundings of the operating field.

Digitally controlled pencils

Reference	Description	Blade length	Packaging
MT100	3 m cable length 3-pin connector VALLEYLAB	70 mm	Double peelable pouch - 50 pcs / box
MT105	5 m cable length 3-pin connector VALLEYLAB	70 mm	Double peelable pouch- 50 pcs / box
