

# NTI™ Nasotracheal Tube Immobilizer

The NTI™ allows for safe, rapid and secure nasotracheal tube immobilization.

## Safe

- Minimizes risk of accidental extubations
- Reduces risk of compression ulcers
- Establishes a universal standard of care

## Efficient

- Decreases surgical setup time
- Eliminates the need for custom assembly

## THE DERMAPROX™ DIFFERENCE

*Protective layer of DermaProx™ safeguards skin against shearing and pressure-related complications*
